WORK EXPERIENCE

Angular Front End Developer

QVC

📅 2022 - current   📍 West Chester, PA

- Managed Angular CLI configurations to improve application load times, resulting in a **26% uptick in performance metrics.**
- Organized Visual Studio Code settings for better performance on large projects, lowering editor lag and expediting coding tasks by 34 minutes.
- Implemented CSS Grid for responsive web design, improving page load times by 2.7 seconds.
- Automated testing procedures using npm, expanding test coverage and cutting down reported bugs in production by 18%.

Associate Front End Developer

TD Bank

📅 2019 - 2022   📍 Mount Laurel, PA

- Organized code across 10+ projects through ES6 modules, enhancing code modularity and slashing dependency issues by 21%.
- Integrated Webpack tree shaking to remove dead code, shrinking bundle sizes by 14% in 8 applications.
- Employed Postman pre-request and test scripts to validate API responses, minimizing post-deployment bugs by 11%.
- Used React.js to build dynamic user interfaces for the bank's online banking system, **increasing user satisfaction scores by 53%**.

Junior Front End Developer

TE Connectivity

📅 2017 - 2019   📍 Harrisburg, PA

- Resolved complex merge conflicts across a 16-person team, maintaining project timelines and decreasing downtime by 29%.
- Incorporated SASS for CSS preprocessing for code maintainability, eliminating styling issues by 62%.
- Customized Bootstrap components to align with brand guidelines, uplifting client approval rates by 38%.
- Assisted in project management tasks, ensuring timely delivery and **94% adherence to project timelines**.
